

# Contractors

The Right Dehumidifier for Contractors  
At Seresco We've Got Your Back!

“Our dream was to create products, services and support that would turn contractors into raving fans!”

## Imagine

- ...a product carefully designed to ensure the best, easiest and simplest installation possible
- ...a manufacturer that provides remote start-up assistance using a live remote connection to the unit via the Internet
- ...a manufacturer that provides a WebSentry® premium 1-year extended labor warranty and a 2-year parts warranty
- ...a manufacturer that monitors and records the performance of their product 24/7 via the internet to ensure peak performance and prevent warranty issues
- ...a manufacturer that bends over backwards to provide the support you need
- ...a manufacturer that puts every bit of information you require in one place on its public website

*That's what we imagined  
...would make us the #1 choice for contractors*

## Why Seresco is Your Absolute Best Choice

Simply put, we care. Installing and starting up a complex pool dehumidification system is not easy. And chances are it's not something you do on a regular basis, so we're 100% dedicated to helping you get the job done as easily and smoothly as possible.

And if there are issues, we've got your back. We'll be there to help solve problems and overcome any unanticipated challenges, no matter what their source. Better yet, we work closely with you and your local Seresco representative to anticipate and prevent potential issues – before they become installation nightmares.

## Seresco's Online Contractor Resources

Looking for additional information about Seresco, products, features, advantages and support for contractors? We have everything on our website conveniently organized and presented just for you on our Contractors tab. From a single page you can access the information you need to make an informed decision about choosing Seresco to supply your equipment.

Please visit our contractor resources page at:

## Seresco's Contractor Advantages

- We work closely with engineers well in advance to ensure that as many issues as possible are anticipated and dealt with – before it's your turn to complete the job.
- We have a comprehensive "Seresco Certified" dehumidification training program for all our reps. A Seresco certified representative is ready to be your partner locally and will help you with anything you might need for a successful job.
- We anticipate everything we can before the unit ships, and extend best efforts to avoid any preventable installation issues.
- When there are problems, we're with you all the way, by telephone, with WebSentry® via the Internet and on site if it comes to that.
- We provide telephone and Internet live start-up assistance, or in person start-up if contracted to do so. Our amazing WebSentry® remote access and control technology allows us to monitor and control the unit remotely if required.
- With WebSentry® connected at startup, we automatically extend our 90-day labor warranty to a full 12 months, thereby ensuring you are looked after for the first year after installation (*Conditions apply, see Warranty Statement for details*).

# Contractors

NE Series

Carefully designed to fit through doorways as narrow as 30 inches.

NE 200 Series

Two compressor system with redundant, fully independent circuits controlled by a single, sophisticated brain.

NP Series

Factory sealed refrigeration circuit. No expensive site refrigeration work.

## WebSentry® Premium Extended Warranty

Because of Seresco's revolutionary WebSentry® Technology, our factory technicians can observe and adjust the operating parameters of every dehumidifier in real time over the internet. That's why choosing Seresco's web-assisted start-up service is like having Seresco working side-by-side with you every step of the way. Here's the amazing part: when WebSentry® is connected at start-up we automatically provide you with a **premium, one year extended labor warranty** (*Conditions apply see Warranty Statement*).

# Renowned Industry Leading Technology & Innovation

**Seresco** builds each and every dehumidifier with technology and features that set the industry standard for performance, reliability and value. For applications ranging from small indoor spas to massive waterparks, we manufacture the largest, most comprehensive product line available. Compare us to the competition and you'll see instantly why we're the #1 choice for discriminating customers!

## Superior System Design

### Protocol Series with up to 85% Less Refrigerant Charge

- Smoothest, most stable room control in the industry
- Easiest and most cost effective installation possible
- Lowest operating and maintenance costs
- Longest lifetime expectancy of any pool dehumidifier

### Ultra Compact Designs

- Twice the capacity in half the footprint (200 Series)
- Retrofit designs for on-site assembly
- Flexible cabinet designs for air supply and service access
- Packaged or split system options

### Superior Compressor Performance

- Advanced refrigeration pressure monitoring and control technologies, unique to Seresco, ensure optimum compressor operation and protection

## Advanced Control Systems

### WebSentry® Technology

- Robust online reporting of real-time performance data
- Automated 24/7 performance monitoring
- Factory supervised startup and support via the Internet
- Automated maintenance and system alerts by email
- Browser-based and smart phone access and control

### WebSentry® Premium Extended Warranty

- Unrivaled 1-year labor warranty (2-year parts)  
*(Conditions apply, see Warranty Statement for details)*

### CommandCenter® Control Systems

- The most sophisticated and powerful controller in the industry controlling over 100 performance parameters
- Sophisticated touch screen operator panel
- BACnet, LonWorks and Modbus connectivity

### Built-In Refrigerant Pressure Transducers

- 24-7 Monitoring of critical suction and discharge pressures to ensure optimal system performance

## Exceptional Energy Efficiency

### Direct Driven, Backward Inclined Airfoil Plenum Fans

- Powerful, quiet, efficient, reliable
- No belts to adjust, wear out or replace
- ECM motors or VFD
- Allows for factory installed auxiliary air heating

### Energy Recycling Systems

- Free pool water heating with recycled energy
- Heat recovery on exhaust air to preheat outdoor air

## Maximum Corrosion Resistance

### Separate Mechanical Vestibule

- Virtually all components are out of the corrosive air stream

### Fully Dipped Coils

- 100% protected against corrosion

### Corrosion Resistant Design, Finishes & Components

## Easy to Service

### Mechanical Vestibule Outside Air Stream

- On all units
- Easy to service even during unit operation

### WebSentry® Remote Analysis & Control

- Instant factory analysis and service support capability via the Internet
- Detailed performance logs available online
- Service technicians have smart phone access and control
