Seresco

The Right Indoor Pool Dehumidifier for Your Hotel

At **Seresco**, we know the importance of the guest experience in your pool. We also know that your bottom line operating and maintenance costs are critical considerations.

Thatâ??s why we build indoor pool dehumidifiers that deliver the best environment for your pool room with optimal energy recycling and maximum energy savings. Our equipment can be relied on for a lifetime of trouble-free
service and high performance.

Donâ??t be fooled by the units with low initial cost that take thousands to operate, maintain, repair and ultimately replace. Choose Seresco, a proven name in premium performance and reliability at an affordable cost.

Seresco

The Pool Dehumidifier Choice for New Hotels

If youâ??re building a new hotel, Seresco provides state-of-the-art equipment for every climate and every size of pool. We also provide the longest warranty in the business, including a full-year labor warranty on top of a two-year parts warranty for every dehumidifier connected to our free **WebSentry** Internet monitoring service.

WebSentry Technology also brings a vast array of benefits for contractors, service technicians and property managers (see below).

Our innovative designs, packaged systems and state-of-the-art Protocol technologies also greatly reduce installation, piping, and copper costs. Our revolutionary Protocol technology also uses as little as 1/6th the amount of refrigerant required by traditional systems while delivering the most stable room conditions possible with virtually zero refrigerant migration and no restriction on dry cooler location distance.

How about the fact that our 2- through 7-ton **NE** models fit through a 30-inch doorway to deliver 850 to 3,400 CFM of air handling? If thatâ??s not enough, our **NE 200 Series** also fits through a 30 inch door to deliver up to 6,800 CFM with redundant dual compressor systems allowing scalable performance and optimum energy efficiency under all conditions.
